👉 It is game you can employ Chinese, American, European, Russian, Canadian, Japanese or else, the point is the win counts! 👉 Until you quit castes and tactics related to this nasty habit of at least few thousand years old. Nothing will change in India and forget about getting coveted VETO power at global stage. If your delicate and no good brains can grasp it, which all global audience is waiting to see in the name of human rights sense. These are also called Hardest choices instead becoming egoistic by dictating indigenously designed etc. This way it sounds very childish 👉 How to beat them and their designs. Learn from them and go ten steps ahead of them.??! 🏴 Please stop saying indigenously built by Indian engineers. Hire the best or the greatest, talented engineers from USA, France, UK, offer them salaries more than where they came from, give them the design projects in India or abroad. Hire the best talent from abroad, as China has been doing, (1) recruiting its nationals with western countries experiences. I suggest learn from them. Your ego will not win you what you desire! What counts is that your design is better than western designs, by tenfold. Just designing something equal to western designs will not cut the deal of supremacy. Remember that always! It is game of how to beat your competition. It is called "made in India or assembled in India". It does not matter who the designers are/were, if it was your or their concept or idea to solve issues or problems. You can employ Chinese, European, Africans or Indians etc. 🏴 ??! A diamond in the wrong hands is just a stone! 👉 Karma or NOT, sir here is free advice. Please enjoy reading these excerpts, I have experienced. If you would like to contribute and want to appreciate my time, feel free to donate graciously. However, I do not expect anything in return, if you are miserable and Poor. In God we truly trust. 🏴 ??! A diamond in the wrong hands is just a stone!??! 👉 Karma or NOT, sir here is free advice. Please enjoy reading these excerpts, I have experienced. 1	Skills and talent updated regularly by government funded educational Programs. Once successful, these endeavors can be handed over to private corporations once deemed it will work. The government funded trainings etc., will be audited by inspectors.	Building new industries encourages scholars to start businesses. This business will develop components for aircraft and semiconductor components.	The health checks annually are must at job and before loans are granted. Please add what is more appropriate to enhance this requirement.
2	Entrepreneur type skills must be enhanced by providing short courses at colleges, universities or health clubs etc.	Encourage Health Gyms memberships by subsidizing membership fees etc.	The certificates of training must be demanded before employment, and during employment. Encourage short training courses and these certificates must be checked at job interviews
3	The less intelligent ways are using force, swearing in ceremonies and wasteful lectures!	The items on the left number 3 in this row, in the left column does not help in reality!	Without certification nothing is verifiable. Use TV and other social media etc., to promote good ideas.

Kindness is one of the greatest virtues that someone can possess. It costs nothing, yet it means everything.

In a world that often feels rushed and selfish, your kindness makes a difference in ways you may never know.

Thank you for being the reason someone believes in good people.

If you put 100 black ants & 100 red ants in a jar, nothing will happen. But if you shake the jar, the ants will start killing each other. Red will believe black is their enemy while black will believe red is their enemy when the real enemy is the person who shook the jar. Same is also true in our society. Before we fight with each other, we must ask ourselves : who shook the jar??

How much more bizarre can it be? Until they realize what's the real progress of elites & inclusive of masses?

When wealth is hoarding in the hands of elites & excluding all commoners, it is called oligarchy!

There must be a point of inflection in the range of ratios of salaries of CEOs and employees.

If all wealth created by corporations is such that 80% goes to CEO's pockets and only 20% (XY%) or less is given as earnings to all their employees. This type of set up or system must be called mean or ugly autocratic system. This (XY%) moving indicator on the scale from 0% to 40% (x=4, y=0) = 40% or more and 60% or less goes to CEOs, must be called All pains and gains are shared fairly. Otherwise, it will be imbalanced system, which will mean all pains are theirs and all gains are that of CEOs. 👉

https://www.microvolt.com/2015/narte_26.pdf Please wake up to brand new future after so many years of experience and spending fortunes for 3 master's degrees from universities located in USA where you were born and raised.

Now if we reduce 10% salary of greedy elite, for example 10% of 100 Million salary is equal to 10 million dollars. When you divide 10,000,000 by 1000 is equal to 10,000.

So, 1000 innovative employees MUST be paid 10,000 extras per month. For example, if innovative employees are getting 150,000 then plus 10,000 will be equal to

\$160,000 and so on.

HOW TO HANDLE A BACK-STABBER PERSONALITY

They smile in front of you but speak against you behind your back. Protect your peace, stay wise, and respond with self-control.

1 SPOT THE PATTERN

- They act warm in person but different behind your back.
- They drop hints, gossip, or twist stories.
- They vanish when real support is needed.

Practice: Trust consistent patterns, not charming moments.

2 DON'T TAKE THE BAIT

- Their behavior says more about them than you.
- You do not need to absorb every opinion.
- You can manage your response even if you can't manage them.

Practice: Remind yourself: their behavior is not my identity.

3 CREATE HEALTHY DISTANCE

- Keep personal details private.
- Don't hand over sensitive weaknesses.
- Limit unnecessary closeness.

Practice: Be kind, but keep clear boundaries.

4 WATCH WHAT YOU SHARE

- Oversharing can become leverage for them.
- Loose talk can become gossip later.
- Guard both personal and work-related information.

Practice: Use a need-to-know filter.

5 KEEP A RECORD

- Save important messages and agreements.
- Write down key incidents when needed.
- Documentation protects you from false claims.

Practice: Facts are stronger than hearsay.

6 DON'T REACT CARELESSLY

- Public confrontation can escalate things.
- Choose the right moment, place, and tone.
- Stay calm, brief, and specific.

Practice: Address issues privately when possible.

7 BUILD YOUR CIRCLE

- Invest in trustworthy relationships.
- A strong reputation gives protection.
- Good people often notice steady character.

Practice: Stay honest, kind, and dependable.

8 STAY PROFESSIONAL

- Let your work speak louder than drama.
- Don't sink to their level.
- Keep your standards even when they do not.

Practice: Focus on results, not emotional noise.

9 REFUSE THE GOSSIP

- Don't join conversations that tear people down.
- Repeating it only keeps the cycle going.
- Step away from negativity when you can.

Practice: Decline to participate and redirect the topic.

10 PROTECT YOUR NAME

- Be steady, truthful, and accountable.
- Follow through on what you promise.
- Own your mistakes quickly.

Practice: A clean record speaks for itself.

11 KEEP YOUR FOCUS

- Don't waste your energy on revenge.
- Stay centered on your goals and growth.
- Progress is a better answer than pettiness.

Practice: Keep your eyes on what matters.

12 ACT IF HARM IS REAL

- If the behavior becomes harmful, report it.
- Speak to the right authority when needed.
- Don't stay silent if your safety or reputation is at risk.

Practice: Protect yourself and others when necessary.

REMEMBER:

You can't change how others act, but you can choose how you respond.

Your reactions

Your boundaries

Your choices

Your peace

YOU CAN CONTROL:

LET GO OF:

- the need for approval
- old grudges
- unhealthy drama
