- ◆ You know the axiom about “No Pains and No Gains”. When there is a ratio of Salaries of 1:1 Million. That means that ...
- ◆ This Ratio of 1: 1Million means, that Employee will experience pains, 1Million times more than Employer, for a ratio of 1:1Million
- ◆ You know the axiom about “No Pains and No Gains”. When there is a ratio of Salaries of 1:200, That shall means reasonable compromise
- ◆ The correct ratio I believe in salaries of Mid Manager Level and Owner of a company must be less than or equal to 1:200
- ◆ What does this 1:200 ratio means; Let's say a manager earns, for example 100,000, the owner's salary shall be 20,000,000 (20 Millions)
- ◆ Another example will be for a Manager's salary of 200,000, that will mean the owner's salary will be 40 Millions for 1:200 Ratio
- ◆ If the above ratio is not mandated then , No pains and no gains” shall mean all pains belongs to employees and all Gains & happiness
- ◆ For Employers. Also any ideas thought or produced by Employees must be treated like properties of Employee, that invented it. The employer can Lease his or her ideas for 5 years, 10 years, 20 years or 100 years etc!
